# Introduction to EUROTOX

## **EUROTOX is the Federation of European Toxicologists and European Societies of Toxicology**

It brings together 36 societies in 33 countries, represent nearly 6,000 members across Europe and more than 200 individual members from around the world.

*The mission of EUROTOX is to foster the science and education of toxicology, and influence regulatory and policy frameworks to promote the safety of humans, animals and the environment, and protect global health.*

**EASL

LIVER INJURY CONSORTIUM

# Awareness

## **1. Dissemination of EASL DHILI consortium on EUROTOX webpage**

## **2. EUROTOX Faculty Webinars**

- Launched in early 2023, monthly Faculty webinars cover a wide range of topics.
- Upcoming webinars are posted on EUROTOX website, newsletter, and social media.
- EASL DHILI could select experts and propose webinars.

SUPPLEMENT-INDUCED  
LIVER INJURY CONSORTIUM

# Synergies

## 1. **EUROTOX annual congress / EASL annual congress**

- Propose a symposium/workshop session focused on “D(H)ILI” co-organized by both organizations to be held in both congresses.
- Promote a slot exchange of experts lectures at both annual congresses.

# Training & Education

## 1. Rolling Program CEC (Continuous Education Courses)

- This is a 5-year program to ensure the development and implementation of CEC at annual meetings that support the requirements to ERT recognition and training.
- Starting 2022, EUROTOX will support two CEC courses at the annual congress. The selected topics will ensure a continuous and seamless evolution of toxicology topics of interest and relevancy to early career and senior scientists.
- EASL DHILI can submit a proposal for a CEC.
